District News

From Our Correspondents

BRANT

Mr. and Mrs. Lyle Platt are driving a new 1947 Chevrolet sedan. Mrs. T. Johns was a weekend visitor in Calgary at the home of her daughter and son-in-law, Mr. and Mrs. Gordon Fox.

Mr. and Mrs. Geo. Bateman were Calgary visitors last week.

Mrs. Francis Bonney, and son, Wayne of High River spent the past week at the home of the former's parents, Mr. and Mrs. T. Johns.

Friends were shocked to hear of the sudden death of Mick Parker. Deepest sympathy is extended to the family.

Oliver Brown left last week for a two weeks vacation at the west coast. Lee Chryphko of Drumheller is relieving agent for two weeks.

BERRYWATER

Mr. and Mrs. A. Gilhooly, Calgary were guests last week at the home of Mr. Gilhooly's daughter, Mrs. C. L. Oldfield.

Mrs. N. K. Budd, Warden and Barbara accompanied by Francis Clements were Sunday guests at Milo.

Mr. and Mrs. L. A. Douglass of Bowness spent last week visiting with friends, and relatives in the district.

Stuart Douglass of Edmonton spent a few days harvest leave at his home here recently.

Mr. and Mrs. J. Palmer are at present visiting at the home of the latter's parents, Mr. and Mrs. Ted Campbell, DeWinton.

Mr. and Mrs. Martin Hoffman of Gleichen spent several days last week at the home of Mr. and Mrs. Jake Hoffman.

Friends of Mrs. Jake Hoffman will be pleased to learn she is making a good recovery from her recent illness.

Several families from the district attended the farewell party at the Bruce Roe home, in honor of Mr. and Mrs. William Myers who are shortly leaving to make their home at Edmonton.

EASTWAY

Mrs. Ida McMullen of Seaside, Oregon, spent last Saturday here with her nephew, W. McMullen, and his family. She also visited other relatives in Okotoks last week and has now returned to Oregon. She made the return trip by air.

A. N. Hill of Vancouver is spending a short holiday this week with his son, R. N. Hill and family. Eastway visitors to Calgary were Mr. and Mrs. Jos Sutor, Mrs. Ray Onstad and Harold Hellevang.

House guests last week at the home of Mr. and Mrs. W. Houlton were Mrs. Daisy Dawson of Calgary and Mr. and Mrs. McNiven of Veteran. Mrs. McNiven is Mr. Houlton's mother and was returning home from a vacation spent at Prince Edward Island.

Pat Laughlin spent several days in Calgary last week.

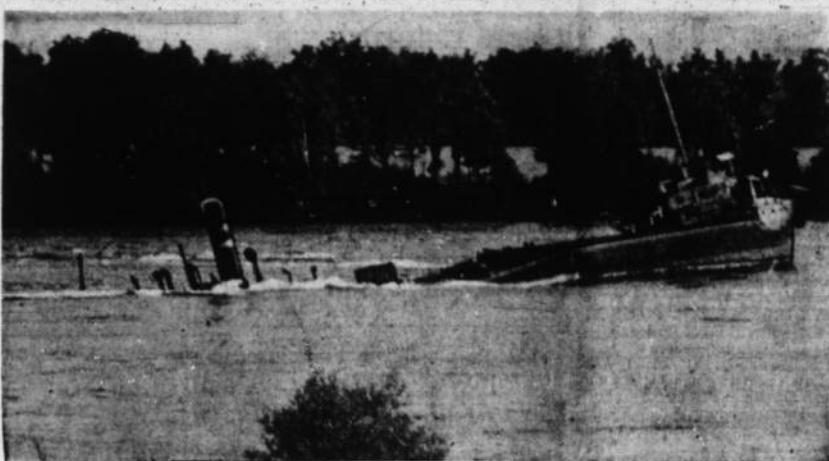

Miss Sheila Copeland was a guest at the home of her uncle, Alex Mitchell, last weekend.

Mr. and Mrs. R. N. Hill and family spent Sunday at Barons, visiting Pat Asplund and family. Mr. and Mrs. Henry McBride spent last weekend in Calgary.

Mrs. Howard Tharle was hostess to the ladies of the Eastway Social Club on October 2nd. Mrs. Harry Washburn acting as assistant hostess. There was much discussion on the preparations for the annual chicken supper and it was decided to charge adults 60c, public school children 35c and under school age children 15c. Gentlemen will be charged 50c admission to the dance. Members of the club are asked to donate one item each for the bazaar table and plans were also made for a fishpond. Roll call was answered with suggestions for Halloween costumes. The raffle was won by Mrs. V. Earle and the contest by Mrs. F. M. Wyatt. Mrs. Gordon Laycraft gave a very interesting reading on "Cancer." Lunch was served by the hostesses. The next meeting will be held at the home of Mrs. A. Oldfield on November 6th.

Deferred payment buying is increasing in Canada, since the wartime regulations have been removed. This is taken to mean that ready money is getting a little tighter across the country, and people are spreading their payments out.

FREIGHTER MILVERTON BREAKS UP ON SHOAL IN ST. LAWRENCE

The freighter Milverton which was recently in collision with the tanker Translake, is shown, breaking up on a shoal in the St. Lawrence river. Nine of her crew lost their lives in the collision and two are still missing.

MacDonald's Briar Curling Event Tickets Available

The MacDonald's Briar Dominion Curling Championship event is being held in Calgary this winter, March 1st to 5th, inclusive, and tickets are being made available to curlers before they are put on sale to the general public.

These tickets are printed in book form, each book containing a ticket for each of the nine games as well as an extra ticket good for a playoff game in case of a tie. The book of tickets is priced at \$4.00 and only a certain number of books have been allotted to each club.

Vulcan curlers intending to take in the championship event at Calgary next March should make application for their tickets as soon as possible to C. W. Loose, president, or W. D. Allen, secretary of the Vulcan Curling Club.

Elks' Carnival Next Weekend

All proceeds from the Elks' Carnival, which is being held on Thursday, Friday and Saturday, October 16-17-18, will go towards the Elks' Memorial Park.

Six big door prizes will be given away each night and prizes for the various games are expected to be much better than in recent years. Dancing will be a feature attraction every night and there will be fun for young and old.

Group displays of vegetables will feature the agricultural show to be held in conjunction with the carnival, with first, second and third prizes awarded to boys and girls under sixteen years of age for their vegetable displays. Entries for this competition should be given into Mitchell's Drug Store by Oct. 14th and the vegetables must be taken to the arena October 16.

Management of the carnival is again in the capable hands of Floyd Atkinson and Gordon Clayton is carnival secretary.

Intertype Type-setting Machine Installed in Advocate Office

On Saturday the Advocate's long-awaited Intertype automatic type-setting machine arrived and has now been installed and is in operation. Purchased from the Toronto Type Foundry Co. of Winnipeg at a cost of \$4,000.00, this machine will fill a long felt need in the Advocate printing plant and will eliminate the necessity of having type matter for the paper set in Calgary and High River.

The machine was installed by Eddie Schebek, the Toronto Type Foundry Co.'s Intertype expert, who arrived in Vulcan on Friday.

Installation of this Intertype will enable the Advocate to produce a better-than-ever newspaper, particularly in the coverage of local news. Setting type some five times faster than can be done by hand, it will effect a great saving in time, not only on the newspaper end, but on many kinds of commercial printing.

Interested readers are invited to drop in at any time to inspect this machine.

Fire Prevention Week Fire Brigade Demonstration

Vulcan Fire Department is observing Fire Prevention Week October 5th to 11th in keeping with other parts of the Dominion and they are interested in the co-operation of the people of this community in keeping this a fire-safe town and district.

Before cold weather comes is the time to inspect smoke pipes and heating apparatus, remove inflammable materials to a safe location or destroy old papers, rags and boxes that have piled up in cellars and attics and generally remove all fire hazard.

Above all, never leave children alone, or keep matches within their reach. Smoke pipes should never be run closer than 18 inches from a wall, unless protection is given. They should be securely fastened together to the stove or chimney to prevent their falling in case of a gas explosion in the stove.

Always use a flashlight instead of a match for light to hunt in a clothes closet, etc.

On Friday afternoon of this week the Fire Brigade will take the fire fighting equipment to the School grounds and show it in operation. Some special new equipment has been added and they wish you to inspect it and see it in operation. If you are interested in your local Fire Brigade and what they are doing voluntarily for your protection, turn out on Friday afternoon at 3:45 at the School grounds and see the demonstration.

NEWS OF INTEREST

Reports that Russia is building rock houses on the coast of Siberia opposite the St. Lawrence Islands of Alaska territory comes from Siberian native.

Average production of the 353,700 cows kept for milk purposes in Alberta last year was 4,687 pounds of milk and 169 pounds of butterfat. Compared with this, production from 86 herds under test with the Alberta Department of Agriculture averaged 8,653 pounds of milk and 333 pounds of butterfat.

Further Delay To Harvesting

Harvesting, which had just got nicely under way again over the weekend, was again brought to a halt early this week by rain.

Both swathed and standing grain has suffered from bleaching and sprouting and an added trial to farmers has been the heavy damage by ducks in some fields of swathed grain.

Crop report No. 10 of the Alberta Agricultural Extension Service states that in this district (No. 4) cutting is 70% completed and threshing 50%. Estimates of yields show wheat 20, oats 35 and barley 27 bushels per acre. Wheat is grading from 1 to 4 and feed prospects are fair to good.

Premier Hart, who has been six years head of the coalition government in B.C. has resigned.

Next Monday, October 13th, is Thanksgiving Day and all stores in Vulcan will be closed.

Prices Soar No Break in Sight

The Financial Post has been making a survey of the future, and finds that in major items of living, the trend is upward and no break in sight.

In men's clothing the line appears to be fairly steady, but anything can happen to British worsteds now 100% over pre-war. They may continue upward for two years.

In shoes prices are expected to advance to about an additional 35% over present prices.

Electrical goods will be governed by what happens to steel, copper and wages.

Hardware that is affected by importation of U.S. steel is likely to register an upward climb. Increases in Canadian steel by removal of ceilings will add further pressure.

In food the forecast is upward for biscuits, macaroni, canned fruit, salmon, pork and beans, tomatoes. Higher prices of tin cans, cases, labor and to producers is the cause. Raisins, prunes, nuts, drop a bit.

Leduc Oilfield Plans Model Town

It is reported that the new town site developing as a result of the strike of oil at Leduc is to be a model town, the first of this nature in Alberta. It is to be built on the banks of the North Saskatchewan near the field.

It is said that preliminary plans have a setup to provide sites for housing 200 families. Provision is made also for business places, municipal buildings, a community centre, parks and recreation grounds, etc. A full sewage system is provided for together with light and gas installation.

It is expected that such a town, designed on lines of definite planning, will serve as a model, and may help other towns in correcting some of the haphazard phases of the centres that just grew without planning.

Govt. Approves Medical Plan

Dr. W. W. Cross, Minister of Health, states that the provincial government supports the voluntary prepaid medical plan proposed by the Alberta division of the Canadian Medical Association.

Alberta physicians at an annual meeting in Edmonton, unanimously endorsed a plan to provide facilities by which families, health groups, corporations and municipal bodies would secure medical care and treatment.

This would involve unification of plans. A complete plan will be drafted shortly.

Lions' Committee Investigates Possibility of Gas Service

Gas Company Is Interested; Depends On Materials And Number Of Consumers

A committee of three members of the Vulcan Lions Club, delegated to investigate the possibility of getting natural gas into Vulcan at some future time, brought back an encouraging report from their interview with authorities in Calgary last week.

The committee members, John Jamison, John Mitchell and Arnold Lloyd, first met with Dr. J. O. G. Sanderson, consulting geologist, who advised that there was a good possibility of wildcat oil exploration in this district next year. Should such a test hole, being drilled within a reasonable distance of the town, strike gas in commercial quantities, the well would be taken over by a private syndicate or the Canadian Western Natural Gas Co. as a source of supply for the town of Vulcan.

A private syndicate drilling for gas in this area would have three chances out of five of striking natural gas in commercial quantity. Such an undertaking would be a very expensive one, said Dr. Sanderson, as the cost of drilling would be about ten dollars a foot and, in this area, it would be necessary to drill to about 4500 feet. Then, too, there would be the big chance of striking a dry hole.

Dr. Sanderson has accepted an invitation to address the Lions Club on this matter sometime later in the year.

Gas Company Interested

A very informative talk was had with the Canadian Western Natural Gas Co.'s engineer, who said that his company would be very pleased to look into the matter of supplying Vulcan with natural gas, just as soon as materials were in better supply. It would be feasible to pipe in the gas from near Cayley as the pipeline supplying High River, Nanton, Claresholm, Macleod, etc. is of 16 inch diameter and has pressure at both ends. There is no shortage of gas and the deciding factor, once pipe and other materials are available, will be the number of consumers. Sufficient consumers are required to justify the expenditure of a branch pipeline and at the same time prevent the cost to the individual consumer being prohibitive.

Brief Items of Local Interest

Mr. and Mrs. O. McCurdy, whose marriage took place recently, spent a short visit at the home of the latter's son and daughter-in-law, Mr. and Mrs. Roger Middleton.

Mr. David McIntyre was a business visitor to Calgary for a few days last week.

Friends of Mr. and Mrs. Victor Fulton are congratulating them on the recent birth of a son.

Excavation has begun on the basement for the Everett Todd home across from the brick school. It is understood that Mr. Todd will bring in a house from the country as have many other prospective home owners this fall.

Bob Porter of Lethbridge, was a weekend guest of Lyle Sales.

Friends of Miss Elizabeth Dixon, who has been nursing at Red Deer for some time, are happy to see her back on the staff of the local hospital.

Mr. J. S. Carson of Maple Creek, Sask., is a visitor with his brother, Dr. G. M. Carson.

Mr. and Mrs. Tom Shaw and family of Calgary are guests this week at the F. Mensinger home.

Miss H. Cameron of the school teaching staff spent the weekend with her sister at Barons.

Miss Opal Hanson and her brother, Glen of Calgary were recent guests with relatives here.

Mr. and Mrs. J. W. Morton of Red Deer are spending the week as guests at the home of their son-in-law and daughter, Mr. and Mrs. Pete Weber.

Bud Rannels of West Palm Beach, Florida, has been visiting Vulcan friends. When the recent hurricane struck Florida Mr. Rannels had the roof of his house blown off and trees in his yard uprooted.

Farewell Party Honors District Pioneers

More than forty friends and neighbors of Mr. and Mrs. Billy Meyers gathered at the O. B. Roe home Thursday evening last, when Mr. and Mrs. Roe entertained in their honor at a farewell party.

A pleasant social evening, with reminiscing of the early days of the district, when Mr. and Mrs. Meyers were homesteaders, was enjoyed, after which a sing-song period was enjoyed by all.

Mrs. Roe, on behalf of the community, presented the departing couple, who will shortly leave to reside in Edmonton, with a table lamp, and expressed the regret of all in losing such valued and beloved neighbors. Mr. and Mrs. Meyers very suitably thanked their friends and said they knew they would miss the happy associations made during their 40 years in the district.

The Thigh Hill W. I. took advantage of the occasion to present cups and saucers to four former members, namely Mrs. Meyers, Mrs. G. L. Clifford, Mrs. Tom Clifford and Mrs. Z. Deal. The serving of a dainty lunch brought to a conclusion, a most happy evening.

Cavalcade Exhibit Speakers Coming

The Crusaders' Cavalcade is a part of the Crusade for Christ and its Kingdom and is intended to emphasize Christian Stewardship by depicting the worldwide work of The United Church of Canada and the challenge of the need for the dedication of life and possessions to the service of God.

The Exhibit consists of electrified models, illuminated transparencies, artistically painted panels, pictures, maps, charts, curios of Eastern lands, moving pictures in sound and color and other interesting features, and will be in High River, Wednesday, October 15th, afternoon and evening.

A staff of Missionaries and Secretaries will accompany the Cavalcade to explain the various Exhibits and to share in the meetings to be held in connection with it.

Three of the Cavalcade speakers: Mrs. R. W. Robertson of the Dominion Women's Associations; Rev. Thos. Hart, Supt. of Home Missions for Northern Alberta; and Dr. Agnew, missionary dentist, formerly of China, will be in Vulcan Tuesday, October 14th.

Public meetings to hear these speakers will be held in the Vulcan United Church, with a Women's Meeting at 3 p.m., school children at 4.15 p.m. and a meeting for the general public at 7.30 p.m. All are invited to attend these meetings.

School News

The grade 10 students have elected the following officers for the Home Room Group: Duane Neville, president, Harold Mensinger, vice-president; Joan Beuhler, secretary-treasurer. The grade 10 students will plan the initiation of Grade 9 students at a later date.

Robert Louis Deans called at school Monday to collect his records and recommendation from the school, as he expects to attend an aeronautical school in California. The Vulcan High School receives many requests from ex-students for recommendations and records of attainment. These are kept on file, covering a period of many years.

Included in the Cadet equipment received on Monday are four telephones and a switchboard. It is now feasible that inter-room telephonic conversations may be the outcome.

The Students' Union will hold its first dance of the season on Friday, October 31st, in the I.O.O.F. hall. This dance is being sponsored by the Grade 11 pupils and parents are urged to patronize it.

Free Enterprise And Communism

(From "Precision")
The American Federation of Labor has been investigating Communist efficiency in Russia, and has reduced to figures a comparison between the American and Russian ways of life.

Under the heading "What you get for your work," a table shows the work hours in United States necessary for certain commodities under free enterprise, and the work hours in Communist Russia for the same commodities.

To buy daily food, the work time in U.S.A. is 3 hours, in Russia 9 hours.

To buy cotton stockings takes 1 hour in U.S.A., 24 hours in Russia. To buy a cotton shirt takes 3 hours work in U.S.A., 320 hours in Russia.

To buy an alarm clock takes 4 hours in U.S.A., but 160 hours in Russia.

Price of a bottle of beer in U.S.A. represents 10 minutes work, but 5 hours in Russia.

A lady's coat is paid for in U.S.A. by 75 hours of labor. In Russia it would be 1000 hours.

A wrist watch means 30 hours wages in U.S.A., but 1600 hours in Russia.

Goloshes mean the wage from 3 hours work in U.S.A., and 160 hours in Russia.

W. D. Mathieson, a private detective, has been given five years at Prince Albert for giving false evidence in a divorce case.

Basic Religions Splitting India

In endeavoring to explain to people here the deep-seated religious differences splitting India, Rev. Archie Gordon in a recent address at High River spoke of the conflicting faiths of Moslem and Hindoo. The Hindoo is a firm believer in the transmigration of souls, and since cattle are held in higher esteem than men it is his faith that his father, for example, upon his death, may be living again in the body of a bull. So when he sees the Moslems casually killing sacred cattle, his whole being is outraged, as the animal being slaughtered may well be housing the soul of his father.

From such matters and an infinity of other conflicting views fights may start with riots and death resulting. Almost always the violent encounters of which one reads spring from religious animosities.

This religious overhang enters politics with each religious group seeking dominance and adding to tension. Sikhs nominate Sikh candidates, Moslems and Hindoos the same. Each has its own area of influence which it hopes to control. Yet even here there are confusions.

The Punjab is considered a Moslem province, yet 37% of the people are Hindoos and 12% Sikhs, thus leaving only 51% Moslem. The Punjab has been put under Pakistan, a Moslem dominion.

The Hindoos are moving out from this Moslem domination, but before they go they seek to kill Moslems. And the same condition prevails in Hindustan provinces where Moslems are on the move. But before they go they must destroy the hated Hindoos.

Add to this the pride and ambition of the princes of India who hold 2/5 of the great land. Some of these are neither in harmony with the Dominion of Hindustan or the Dominion of Pakistan, and have not yet signaled their readiness to join the Dominions. They will not be disposed to relax dominance of their own little Empires, many of which are vast in extent.

It is mainly the conflict in religious faiths which seems to

Alta. Asphalt For Roadways

(C. V. Myers, Calgary Herald)

The asphalt business in Alberta is in full swing. The Husky Oil and Refining Company at Lloydminster is turning out 800 to 1,000 barrels a day of high grade product. The asphalt is going to the Alberta government for road building and to Saskatchewan.

The Alberta government is using asphalt in its road building program, applying it now at Leduc, Stony Plain and Drumheller.

Husky is processing 2,200 to 2,400 barrels of oil a day, between 65,000 and 70,000 barrels a month. Of this, 1,500 barrels a day is going through the asphalt plant. Recovery is about 55 per cent asphalt. The balance is fuel oil, furnace oil and light ends.

The Husky plant could produce up to 1,400 barrels of recovered asphalt a day when running at capacity. So far the supply of crude has not been sufficient to allow capacity production. Of 2,200 to 2,400 barrels a day received by Husky, 700 to 900 barrels are processed as fuel oil for use by the C. N.R. and other fuel consumers. The C.N.R. is using 400 to 500 barrels a day, 30,000 barrels a month of the Husky product, besides quantities taken from other cleaning plants at Lloydminster.

Husky is presently erecting a 75,000 barrel storage plant. It may be used for either crude or asphalt.

threaten any real settlement in India. And it is because of this conflict that Mr. Gordon sees conversion to Christianity as a development which could be a unifying influence on the whole structure. That is why he is returning to India to continue his work of Christian missions, and it is why he is hoping for renewed support of all Christian people in extending the work of missions in India.

President Truman has appealed to U.S. people to avoid any waste of food in order to ship more food to hungry Europeans,

The Alberta Pacific Grain Co. (1943) Ltd.

NOTICE TO FARMERS GRISTING

WHERE A PRODUCER delivers wheat to a mill for gristing and receives a return of the flour, bran and shorts resulting therefrom, or which could be extracted from the amount of wheat delivered, paying only for the cost of gristing, such wheat will not form part of his delivery quota and no producer's certificate may be issued in respect of such wheat.

Our gristing charge is **35c** per bushel (sacks extra) and you receive the flour and by-products. Or we will allow you the full elevator price for your load of wheat [Grades 1, 2 or 3], plus 3c a bushel for hauling, in exchange for flour at **\$3.50 per 98 lb. sack**. The flour may be taken out as needed.

IF PRODUCERS DESIRE to obtain a producer's certificate in respect to wheat delivered to a mill, the transaction must be completed as a separate sale of the wheat involved, to the mill, at the Board's fixed initial price and a separate sale of flour to the producer at the market price.

IN ALL CASES where the producer delivers wheat for the account of the Canadian Wheat Board, the quantity delivered must be charged against the delivery quota in effect at the time the delivery is made.

If you wish a Producer's Certificate for the wheat you deliver to the mill, we will buy the wheat at the full elevator price plus 3c a bushel for hauling and sell you the flour at **\$4.15 per 98 lb. sack**.

Pertinent Topics

Discussed by H.C.

We become curiouser and curiouser to learn why the disappointment U.N. delegates feel on account of the way Russian delegates are behaving, and again we are constrained to point out that they could have avoided disappointment by giving full credence to what Soviet delegates say as Communists and less to what they say, on occasion, as diplomats. They speak truth when they proclaim their mission to bring about a world revolution against what they call capitalism; they lie occasionally when they sing lullabies about their desire for peace.

Why other nations should fear that Russia may quit the U.N. passeth all understanding. It cannot be that they are serious, for Russia could not possibly do so much mischief, and they could do so much more peace-work, if she were out. It must be that it is to appease Russia's friends in their own countries—those soft-headed sob-brothers who fear that the little fellows may turn against the big bully and his gang and beat them up. They need not be afraid that the Soviet delegates will quit so profitable a game. They will remain so long as they can use peace conferences as sound-trucks for propaganda and barricades for obstruction.

The Russian delegates to the Security Council showed what little respect they had for the laws of other nations when they walked off the boat, by-passing the immigration authorities and leaving the vessel liable to a fine of \$1000 in each case. The delegates of no other nations were so discourteous. It is Russia's disregard for the laws of other nations that compels Canada to spend some money and employ R.C.M.P. to protect Ignor Goshenko from being killed. Senator Turgeon of British Columbia thinks we must use every effort to dispel Russia's suspicions of us, but Moscow will never forgive us for exposing its spies and protecting Goshenko from their assassins.

The execution of Petkov, the anti-Communist leader in Bulgaria, was approved, and probably instigated by the Kremlin. It is a murder such as that of Mikhlovitch in Yugoslavia by Marshal Tito. Such crimes are common where the present rulers of Russia hold sway, but that does not diminish the fervor of the Canadian Legion for Soviet Friendship although it would never approve the murder of Winston Churchill by the Labor government after due trial on the charge of being an enemy of the people and a reactionary plotter against the Socialist regime.

Soviet delegates to Flushing Meadows deem it a good place in which to use their four-flushing methods.

A Moscow spokesman declared that President Truman and his Secretary of State are pursuing courses just as criminal as those of the Nazis which led to the late war. Marshal Stalin should call him up and then call him down. "Tavarish," he should say, "Why bring that up? Don't you know that we made a treaty of friendship and trade with the Nazis at that time?"

Dr. Wu, secretary general of the Legislative Assembly at Nanking figures that Communism will survive even if Russia should be beaten militarily, because it "thrives on ignorance and poverty." That is probably true in China, but in other countries it makes converts among the wealthy or well-to-do, and among the educated classes. It is not ignorance but perverseness that makes them believe that Britain and the United States are hamstringing the United Nations although that accusation comes from the country that has used the veto twenty two times.

Greer Garson has got a divorce from her husband because he sometimes refused to talk to her, and sometimes left the house without telling her where he was going. What a terrible man! He is Richard Ney who played her son in Mrs. Miniver.

PONTIAC

A PRODUCT OF
GENERAL MOTORS

Many of Pontiac's most important qualities are so obvious that you can readily see them for yourself.

You can see, for instance, that Pontiac stands alone for distinctive beauty. You can see the luxury and quality of its Fisher bodies. You can take the wheel for half an hour—and learn what a matchless performer it is.

But the greatest Pontiac quality of all is known only to its owners. For, above everything else, Pontiac is a GOOD car—and its greatest virtue is its extraordinary dependability.

The thrill of the first month of Pontiac ownership lasts and lasts. In fact, the longer you own a Pontiac, the happier you'll be with your investment. So make your next car a Pontiac—a good car through and through!

The stack of orders piled up for the new Pontiac are gratifying testimonials to the quality and beauty of this finest of the famous Silver Streaks. Unfortunately, so many orders also mean that many who choose Pontiac must wait. So if your car-wise head and heart say "Pontiac"... your present car will give you better, safer service while you wait if you have it serviced by your Pontiac dealer.

Here's What Makes Pontiac Good — Through and Through!

SMOOTH, POWERFUL L-HEAD ENGINES—Your choice of a six or an eight, 100% Full-Pressure Metered Flow Lubrication, Gaselector, Scotch-Mist Manifold, Vacuum Spark Control and All-Weather Engine Temperature Control.

PERMANENT OIL CLEANER—Highly efficient, nothing to replace, gives positive protection. Contributes greatly to longer engine life.

SAFETY STEERING—More positive control with less effort. In combination with small turning circle, makes parking easier.

HYDRAULIC BRAKES—Unsurpassed for smooth, regulated control.

BODY BY FISHER—Big and roomy, Unisteel construction, Fisher No-Draft Ventilation, Safety Plate Glass, stylish interiors.

News From
CHAMPION

SILER - ELLIS

A wedding of widespread interest in Southern Alberta was solemnized Tuesday, September, 30th at 7 p.m. in Central United Church, Calgary, when Anne Christina Ellis, of Champion, only daughter of Mrs. W. J. Ellis and the late Mr. Ellis, Reeve of the District of Harmony, and A. L. (Bud) Siler, also of Champion, only son of Mrs. E. B. Siler and the late Mr. Siler, exchanged marriage vows. Rev. C. Andrew Lawson read the marriage lines before a candle-lit altar banked with large baskets and tall standards of pastel-toned gladiolus.

Entering the church on the arm of her brother, James W. Ellis, who gave her in marriage, the bride was gownned in traditional white satin, styled with sweetheart neckline, long lily point sleeves and featuring a circular peplum accented with trim of trapunto embroidery outlined in seed pearls, the same trim being repeated on the fitted bodice. The skirt graduated from the fitted hip line to a full hem. Her floor-length veil of embroidered illusion net-cascaded from a Coronet head dress of white sequins shaped in a lovers knot. Her bouquet was a shower arrangement of red roses and stephanotis. Double strands of pearls, the gift of the groom, completed her costume.

Miss Lois Lindsey of Calgary, as bridesmaid, was gownned in pale blue taffeta, styled with fitted bodice, puff sleeves and full skirt with graduated rows of shirring and featuring a bustle back. Her long lace mittens and chapel veil, which fell from a garland of pink blossoms, were to tone. She carried

a bouquet of pink Carnations and bouvardia. Mr. Ferris Bouzyan of Champion, attended the groom and the guests were ushered by George Ellis and John Carlson, brother and cousin of the bride.

During the signing of the register, Mr. G. M. Campbell, of Calgary, sang "I'll Walk Beside You", accompanied at the organ by Mrs. Phyllis Chapman Clark. Following the service a reception was held at the Harris Sky Room when the bridal couple was assisted in receiving by the bride's mother and the mother of the groom. The former chose an afternoon frock of mist grey with pale pink trim, a black hat and accessories and completed with a corsage of pink rosebuds. Mrs. Siler was attired in coral tone grey with gold trim, an off the face black hat and black accessories. Her corsage was of talisman roses.

A four tier wedding cake, topped with miniaure bride and groom that had adorned the wedding cake of the bride's mother, centered the U-shaped table, flanked by lighted cathedral tapers in silver candelabra and vases of roses and carnations. Mr. Campbell proposed the toast to the bride, to which the groom responded. A dance followed the reception.

Mr. and Mrs. Siler left by motor for Banff, where the honeymoon is being spent. For travelling the bride changed to a brown crepe and satin afternoon dress, worn beneath a moss green coat with brown squirrel trim, brown halo hat and accessories. Her corsage was of rose centered gladiolus. Upon their return they will make their home at Champion.

The groom is the well known ace pitcher of the Champion baseball club of the Wheatbelt League. His father, the late "Cy" Siler, was famous throughout Alberta for his pitching ability of many years standing.

Vulcan Lions Club
Auction Sale

C. M. Allen's Auction Sale Lot, Vulcan

Sat., Oct. 25th

Dear Friend:-

A member of the Vulcan Lions Club will be around next week, (October 13-18, in Vulcan—Wednesday afternoon—October 15th) to solicit donations of articles for the annual Lions Club Auction Sale to be held at C. M. Allen's Auction Sale Lot, Vulcan, on Saturday, October 25th.

In addition to articles donated, emphasis is being placed this year on larger articles which are to be offered for sale on a commission basis.

It is not necessary to wait for the canvas, phone or leave your listing with A. Lloyd Jeweller, Phone 175 Vulcan.

Proceeds of the Auction Sale will be used for the beautification of the Cemetery and other such worthy causes.

This is your chance to dispose of articles you no longer need, and at the same time, to show the Vulcan Lions Club that you approve of their work as a Service Club.

Plan now to attend and make it **THE** Auction Sale of the year.

If the Lions Canvasser misses you do not hesitate—phone or bring your listings to A. Lloyd Jeweller, Phone 175, Vulcan.

Time is short and a lot of listings are needed **NOW**.

Help the Lions Club improve our Town and District.

Great family news!

It's the little things

That brighten up the Home

Brighten the corner... with New Lamps... Tables... Occasional Furniture Gay Draperies... Throw Rugs... Bed Spreads.

It's the little things about the house that add charm and beauty to dull homes. Shop tomorrow and picture in your mind how just a little something new will brighten your home. And remember you get more for your money at home.

Denominations of Bonds — \$50 — \$100 — \$500 — \$1,000.

THE CANADIAN BANK OF COMMERCE

The Bank will make delivery of all Bonds on 14th October, or as soon thereafter as full payment for them is made.

University of Alta Alumni to Meet

October 10 and 11 are the dates set for a gathering of alumni of University of Alberta. They will be guests of the Students' Union, and alumni, old and young, are invited to the reunion. A special feature will be the reunion of the class of 1922 which will celebrate its 25th anniversary.

The program is to include a monster parade a football game between Golden Bears and Montana School of Mines, a dinner and dance, a debate between Calgary and Edmonton, golf and tennis tournaments.

The Students Union office will be glad to make all reservations in respect to the dinner. On Friday, Oct. 10, there will be registration, inter-collegiate golf and tennis, and in the evening the Calgary vs. Edmonton debate. On Saturday Oct. 11 at 1.30 there will be the parade to the football grounds at Clarke stadium, then the game. At 6.30 the banquet for alumni will be held followed by the dance.

Reports of freakish summer crops on atom-bombed Nagasaki are interesting to scientists. Crops are many times normal and ready for harvest much earlier.

IGNITION AND ELECTRICAL WIRE AND CABLE

We have several million feet of brand new wire and cable to do practically all jobs required on a farm. Prices considerably below what you would normally have to pay. Send us a list of your requirements and we will be pleased to quote you. Below is a list of some of the wire available.

- No. 4 Wire: Unshielded, Trimeter, Duocel, Duocel, Duocel, Trimeter.
- No. 7 Wire: Unshielded, Duocel, Duocel, Duocel, Trimeter.
- No. 19 Wire: Unshielded, Duocel.
- No. 27 Wire: Unshielded, Duocel.
- No. 64 Wire: Unshielded, Duocel.
- Star Wire, Shielded Wire, etc., etc.

Not sold in quantities of less than 100 feet.

REMITTANCES. Shipments to prepay stations must include sufficient money for transportation. Any difference will be refunded immediately. The demobilization program is very costly and we cannot give any extra service. Prices shown here include packing charges and delivery to the transportation Co. We cannot make refunds on goods sold.

Tail Wheels

Complete with Brand New Tire and Tube. 4 inch cold-rolled steel axle. New Bearings. Thousands have been used for making wheelbarrows or 4-ton capacity single wheel trailer. Parts and tires will always be available. Complete assembly \$14.50

Bucket Seats

Made of aluminum, very sturdy, weather-proof. Ideal for tractors, lawns and other uses. Beautiful, highly polished aluminum. Worth about \$10 each. Illustrated here cushion \$2.50
With Leather Cushion horse hair filled \$12.50

Foldaway Seats. Semi-bucket type seats. A very good seat. Seat folds to back, then away to side. Takes very little room when folded. Leather back and cushion. Seat like this would cost about \$30. Price \$6.50

Floodlamps

This is a search and spot light. It has a wide spread beam. Converted to 6, 12, 24 or 110 volts. The most marvellous lamp you have ever used. Can use it on tractors and other farm implements. No tractor lamp can compare with this one. Suitable for skaling trunks, playgrounds, parks, theatres, signs, window displays, barns, parking garage, advertising stand lamp and many other uses. Very sturdy yet light construction and mounted on an adjustable bracket. The reflector is a non-rusting chrome finish and can be exposed to all weather conditions without danger of deterioration. Lamp cannot easily be damaged by vibration. Requires no more current than the ordinary auto lamp. Please state whether you want 6, 12, 24 or 110 volts. Each \$6.00

Fire Extinguishers

Fluid will not do damage to Rugs, Furniture, electrical apparatus, etc. Made by leading manufacturers who supplied them to the airforce. A farmer who bought one in Neepawa said to us the other day, "You can use my name if you want to. I saved myself \$2000. My combine caught fire. I would have lost my combine and some wheat. The fire extinguisher I bought from you saved it." It pays to be protected. \$4.50

Tachometer

Ideal for checking cylinder speeds other on your combine or any other machine. Gives the RPM indication at a glance. Can be attached permanently to end of shaft and read the dial. Probably cost originally \$100. \$7.50

Flight Panels

Including the following instruments: artificial horizon, gyrocompass, directional gyrocompass, airspeed indicator, vertical speed indicator, altimeter, turn and bank. We understand that these flight panels cost over \$500. The instruments can be adapted to other uses but must not be used in licensed aircraft. \$25.00
We also sell individual instruments separately.

Magneto

7-cylinder. Can adapt for cylinder engines. Extremely well built. Suitable for instruction purposes in schools. Probably use some parts as bearings, condenser, platinum points. We understand it cost about \$200. Made by Bendix Aviation. This is the same magneto as used in conversion work on the Chrysler engine. Make your own propeller and Electric Fence charger. \$4.50

Small Booster Magneto

Very similar to a motorcycle magneto in size. Has platinum points and is very successfully used in blacksmith shops, garages, etc. to light acetylene torches turning the magneto slowly by hand and a heavy spark is given off which will light the acetylene torch. Original cost about \$30.00. Clearing at, each \$3.50

CHICKEN BROODER COOP
Aluminum cowl makes an excellent chicken coop. Also other uses. \$1.50

MOTOR MOUNTS

This is the Tubular Framework in Which the Motor Fits
Made of light tubular construction, very sturdy. Ideal for making work bench. Chuck full of copper tubing, brass fittings, con???? articles worth 5 times our asking price. \$1.50

Lighting Plant Generators

Ideal for electric Power Plant. 300 watt unit, 12 volt. Will operate as wind electric or can be driven stationary engine. Farmers can operate it with water pump motor at same time as pumping water. Will furnish light for 12 25-watt house lamps. Generators are in perfect condition as good as new. We believe they cost about \$200. Parts available for replacement at all standard ignition repair places or at Auto Wrecking Co., 211 Fort St., Winnipeg.

300 Watt Generator. Generator complete includes generator controls, ammeter etc. \$28.50

450 Watt Generator. 12 volt will light up about twenty, 25 watt lamps, complete \$39.50

Electric Starters

We are given to understand that these have been used into small electric motors and electric drills and were very satisfactory. Although the starter is 12 volt it works satisfactorily when used as a drill or 22 volt power. Each \$6.50

Make Your Own Hydraulic Press

Hydraulic Floor Jack Body Jack Spring Spreader

The Air Force have themselves made up dozens of presses. They work perfectly. The presses were standard equipment in Air Force shops right across Canada.

Save \$200. 15-ton Press, \$150 on a 5-ton Press, \$100 on a 3-ton Floor Jack, \$100 on a Body Jack. Blueprint how to make Hydraulic Press furnished free. Extremely easy. Less than \$15 materials required. The pump & Oil leg are the only main items required.

15-TON Oil Leg including pump \$29.50

5-TON Oil Leg including pump \$17.50

Hydraulic Jacks

These are suitable for lifting cars or trucks. High pressure built. Adaptable for tractor equipment and many other hydraulic uses. These Hydraulic Jacks cost probably ten times our asking price.

Hydraulic Flap Jack. About 14 ton capacity, piston rod travel about 3 inches. Each \$4.90

Hydraulic Undercarriage Jack. About 3 ton capacity, piston rod travel about 1 inch. \$7.50

Hydraulic Undercarriage Jack. About 3 ton capacity, piston rod travel about 16 inches, each \$12.50

Hydraulic Hand Pump. When purchased with Hydraulic Jack (not sold separately) each \$4.50

Aluminum Gas Tanks

Can adapt for storing water or oil. Suitable for bath. Made of aluminum. Will not rust. Construction. Probably cost ten times our asking price. Suitable for floating docks or storing fuel oil for farm use. Also suitable for floating docks or storing fuel oil for farm use. In units of two or three or more can be hooked up together. Tanks are equipped with filler caps and are guaranteed leak proof. Mount tank on stand for shower bath. 35 gallon capacity. Each \$6.50

Quantities of 2 or more, each \$5.00

94 gallon capacity. Each \$16.50

7-Gallon Aluminum Tanks. About 10" diameter and 32" long, round shape. Suitable for storing water and many other purposes. Will not rust. Each \$2.25

Wood Propellers

Made of hard wood used by many for ornament clocks and to polish by for ornamental purposes. Each \$4.50

Oscillating Type Pump

This is a wonderful little hand pump. It has a large capacity. Turns a large stream. Can be used for spraying, transferring gasoline from barrel and many other uses. Where a hand operated pump is required this little pump can't be beat. Probably cost close to \$75 originally. \$4.50

Engines

Make Your Own SNOWPLANE

BUCKET SEATS. To clear 2.50

With cushion 3.50

REMOTE CONTROLS 2.50

WIRE WOVEN CABLE. About 25 feet, including 2 pulleys with bearings 2.50

12-VOLT COIL 4.50

WIRING. High tension, single, two and three conductor. Per foot 2¢ and 3¢

AEROPLANE PARTS WHICH CAN BE USED BY MOST EVERYBODY

FREE!

WINGS—Come with your truck or trailer. Haul them away. All kinds of Bolts, Nuts, Sprocket Chains and Sprockets, Hinges, etc. Plywood, canvas waterproof covered. We will be glad to show you how they make excellent covered-in shelter.

AIR COMPRESSORS

\$18.50

Blow up your Implement, Car or Truck Tires. Pressure up to 90 lbs. Suitable for Painting, Spraying and many other uses.

Vacuum Type Pump (Rotary)

Small compact yet large capacity. The vacuum pump does not use a take and outlet. Can be power driven. Can easily be mounted direct to tractor. Especially ideal for cleaning purposes. Handling fairly large quantity of water. Probably cost \$100 originally. You can't beat this pump and must be seen to be appreciated. \$9.50

Gear Driven Pump (Rotary)

Serve the same purpose as the vacuum type. \$9.50

Automatic Hydraulic Pump

Used to operate undercarriage of twin motored aeroplanes. 1000 lbs. pressure. We are given to understand that these will make extra fine pumps where hydraulic and high pressure is required. Will raise and lower implements on a tractor at a touch of a push button. We believe this cost originally over \$100. Each \$12.50

Wire Woven Cable. About 25 feet including 2 pulleys with bearings. \$2.50

Oil Filter

This filter cost about \$50. Will filter oil, water, gasoline and other fluids. Does not use a line and other filter. It is the washable type. No cartridges to buy. Because of its high cost it is not usually supplied as standard equipment. Will fit all tractors, cars and trucks. Easily installed. \$4.50

Gasoline Filter

Universal. Can be fitted to any car, truck or tractor. An extremely high quality filter, each \$1.50

Heat Gauge Unit

For oil or water cooling system. Can be adapted for tractor, car or truck use. Sensitive, yet so sensitive that warmth of your hand will change the reading. Long flexible line suitable for short or long installations. Original cost probably ten times our asking price. \$4.50

Thermometer

Outside mounting and in-side reading, was mounted outside pane and recorded in plane cabin. Probably cost over \$15 to \$25. \$3.50

Voltmeter

These are the type and not to be compared with the low priced voltmeter. Each \$4.50

Volt & Ammeter

Either individually or combined. These are especially high quality and must have cost a great deal of money. These are the best value and not to be compared with the low priced automobile amp or voltmeter.

Individual AMMETER \$4.50
Combined VOLT & AMMETER \$6.50

Compass

Extra fine precision instrument, extra fine for boats, mining and surveying. We understand cost over \$200. Our price \$10.00

Switches

4-way 1 to 2. 1.50
2-way 1 to 2. 1.50
Two panels (8 toggle switches) on one panel 75¢

Single toggle switches 35¢

These are all extremely fine switches. Also some heavy duty single switches. Each 50¢

Single Rheostat Switches 50¢

Dash Lamps

Including switch and removable mounting bracket. Extra well made. State if 6 or 12 volt bulb is required. 75¢

Dole System

Pumps gas directly to intake manifold. Same as used on many of the most expensive cars. Especially valuable when used with updraft carburetor. Extra good for use on combine or tractor. Pack nuts included. \$2.50

Selector Valves

1-way selector valve. \$1.50

12 Volt Coil. finest make available. \$4.50

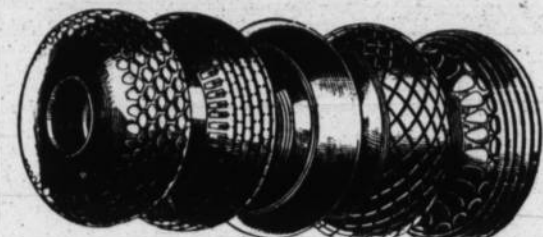

12-Volt Horn and relay. \$3.00

12-Volt Cut-Out. A real high quality product. \$2.50

Radio Hams

Finest precision instruments. Some of these instruments cost about ten times our selling price. They are basically, Voltmeters, Ammeters, Ohmmeters used for specific electrical instruments, but can be very quickly adapted for radio use. 0 to 100,000 ohms, each \$4.50

0 to 1 MEG-ohms, each \$4.50

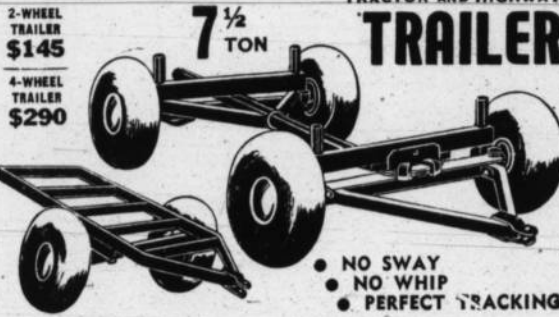

Main Wheels, Tires and Tubes, Hubs, Bearings and Axles which are easily converted to Trailers

The tires are in first class condition made of pre-war rubber and the finest rayon silk cords. Each tire rated by the tire manufacturer to carry a load capacity of 3 1/2 tons. Two of these tires carry a plane weighing about 3 tons with six passengers, where the safety of the passengers are at stake and landing at about 100 miles an hour with rarely an accident. They should give you 50,000 miles of good service as tractor speeds carrying three or four tons on the two tires, 80 to 120 bushels of wheat on the two tires. Lots of them are already doing that. This size is already available for replacement at the Auto Wrecking Co. Ltd., 271 Fort Street, Winnipeg, largest auto parts house in Canada, for nearly thirty years in business. The manufacturers are continuing making this size of tire. You need very little else to turn this equipment into a trailer, at most \$35.00 if done at your local blacksmith, and for much less if you can do it yourself. Write for prices to AEROPLANE SALVAGE CO., 603 Archibald St., St. Boniface, Winnipeg.

BUY 2 OR 4 UNITS AND MAKE YOUR OWN 2 OR 4-WHEEL TRAILER. HAUL AS MUCH AS 7 1/2 TONS OF WHEAT.

HAUL - 250 BUSHELS WHEAT

EXTRA HEAVY DUTY TRACTOR AND HIGHWAY

COMPLETE TRAILERS
Come Over—We Will Be Glad to Show Them to You.
Over 1,000 of These Now in Use.

COMPLETE Aeroplanes

AEROPLANES ARE AT: SWIFT CURRENT, WEYBURN, ESTEVAN, VULCAN, MACLEOD, CALGARY, LETHBRIDGE, DAUPHIN, NEPEAWA, CARBERRY.

Owing to the shortage of time at our disposal to complete our dismantling program we will sell a limited number of COMPLETE AEROPLANES

People who are familiar with the great amount of value there is in each of these planes have come for several hundred miles distant from their homes to buy one and take it away. Wings are separated at the outside edge of the motors. They are easily towed away with 1/4-ton pick-up. The tires are blown up and it is possible to haul them at 30 to 35 miles an hour.

Write us for further particulars. For prices and how delivery is made, etc. We will soon be at most fields (our own location near the Government airfields, not on the Government Field).

Act quickly before we have completed our sales program of Complete Aeroplane Sales. We will give you sufficient time in which to arrange for delivery.

THIS IS YOUR LAST OPPORTUNITY TO GET ONE OF THESE PLANES AT A BARGAIN, PROBABLY LESS THAN ONE-QUARTER OF ONE PERCENT OF ITS ORIGINAL COST

FUSELAGE

- House Trailers
- Sleeping accommodation for harvesters or for use as hunting camps or at resorts. Cabins for snowplanes or vans for sleighs, and for chicken houses, for which farmers have found them successful. A great number of people have bought them for greenhouses. They make an excellent greenhouse. Just the thing for caboose behind combine, cook house. They are waterproof and windproof. It is fitted with plexiglass windows with opening in and out hinges. The plexiglass windows can be used for forming plastics, cost originally over \$200.00. Fuselage is electrically wired all over for lighting. The inside measurements are 5 ft. 3 ins. to 5 ft. 10 ins. in height, and 3 1/2 ft. wide.
- Vans for Sleighs
- Chicken Houses
- Green Houses
- Caboose behind Combine
- Cook House

Champion News

The date of the Champion Home and School Association meeting has been changed to Wednesday, Oct. 15th, when School Inspector Korec will be present. Four National Film Board reels will be shown on the new school projector at this meeting.

The Advocate regrets that unavoidable circumstances have made it necessary to carry over the Champion news until next week.

Price of Flour

(Saskatoon Phoenix)

The price of flour made from hard wheat has gone up \$4.05 a barrel as a result of price decontrol this month. Two points concerning this increase are worth noting. The first is that, under the conditions by which the wheat board paid a substantial subsidy on wheat used for human consumption as flour in Canada, there was no stock of flour on which the subsidy had been paid. In other words, the millers are not now able to sell flour on which the subsidy had already been collected at the new price, thus profiting two ways. This point is explained by the following facts. The mills have purchased wheat at \$1.58 1/2 a bushel. On flour entering into human consumption in Canada, the wheat board paid a subsidy of 81 1/2 cents a bushel of wheat. But the subsidy was paid after not before the flour had been sold to a customer, whose flour throughout the war was kept to the 1941 price when wheat was 77 3/8 cents a bushel.

The other point is that the increase in the price of flour is not accounted for entirely by the removal of the subsidy. It takes approximately 4 1/2 bushels of prairie wheat to make one barrel of flour, so the increase of 81 1/2 cents a bushel on wheat used for flour for human consumption in Canada represents a straight increase of \$3.65 per barrel.

Other costs entering into the price of flour include containers and bags, transportation and labor, and supplies. One company has estimated the increased cost arising from these items, which were not allowed to increase the price while flour was controlled, to be 75 cents a barrel. Only 40 cents of the increase from this source has been charged to flour. The other 35 cents has been added to the cost of bran, shorts and middlings, which have gone up \$10 a ton. The increase of \$4.05 a barrel of flour is explained, therefore as \$3.65 due to the removal of the subsidy and 40 cents due to other milling costs.

Items From Bob Edwards' Inimitable "Eye Opener"

In the issue of the High River Eye Opener, July 5, 1902, Bob Edwards starts off mildly by recounting a little practical joke on High River hotel keepers. But, under guise of Dominion Day school celebrations, he warms up to his favorite topic of waste of public money in subsidizing acquisitive railway lines. He does not see Canada as a thrifty land, but as a country given over to financing big shots.

July 5, 1902

The High River hotels were thrown into a state of consternation Tuesday by the unexpected appearance of a license inspector. Not that there was anything wrong with their hotels, but this inspector found fault with everything. Nothing was right and if they did not make immediate changes their licenses would be cancelled. Panic prevailed. But it gradually dawned upon them that they were victims of a villainous practical joker, A. H. McEwan of Winnipeg, who fried them over the coals and then laughed.

Twelve New Engines

The public will be astonished to learn that twelve powerful new engines are coming from the east to make headquarters in Calgary. It is true and all we are anxious about is that they don't interfere with the activities of Old Thirty-Two, without which we cannot live. Old Thirty-Two is engraved on our hearts, a signpost of the flight of time since the C.P.R. first laid its big fist on this country.

Glorious Dominion Day

The Eye Opener is pleased to furnish a report on observances at the High River School on July 1, 1902, in celebration of Dominion Day.

"Yes," said the schoolteacher "Dominion Day is here. How thankful we should be for the glorious privilege of living in Canada, passing our days in the garden of the world, clothed with righteousness and attired, like Adam and Eve, in a maple leaf. Canada, dear children, is young, thrifty and ambitious. Canadians are working out their own destiny, and guided by thrift, the future looms brightly."

Johnny Pudgers, irresponsible pupil, asks "Teacher, did you say that Canada was thrifty?"

Teacher—"Certainly Johnny. I trust you will grow up to follow in the same high principles."

Johnny—"Do you call it thrifty to subsidize the C.P.R. for \$155 million for a line, which in their own statement cost only \$131 million. This gives the C.P.R. a present of \$24 million, and throws the road in too."

Teacher—"Hush Johnny. As I was about to remark, love of country, which Dominion day evokes, must appeal to your youthful souls. You are the future statesmen to whom the destinies—"

Johnny—"And are we going to carry as our destiny the Calgary and Edmonton line? Assisted by the government for millions over actual cost?"

Teacher—"You are speaking of a former government Johnny."

Johnny—"I'm speaking of Canada and thrift. Was it thrifty to give the Crow's Nest Railway enough cash to build their road and in addition give them Canada's richest coal possession?"

Teacher—"Be careful how you try my patience. You have been listening to gross and inquiring men, whose coarse frankness is contrary to the custom of this country."

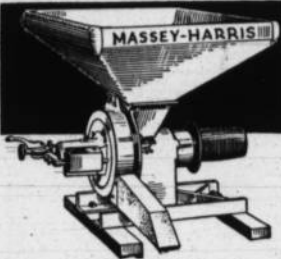

Johnny—"And was it thrifty to give the C.N.R. \$30,000 a mile in cash, and guaranteed government bonds for the road between Winnipeg and Port Arthur? Is it thrifty to load the G.T.P. prairie section with capitalization of \$55,000 a mile, when prairie roads are built for \$10,000?"

Teacher—"This is too much Johnny. Hold out your hand." Johnny (holding out his paw for the strap) "And how about

the Treadgold concessions in the Klondyke (whack). Do you approve of 350 miles (whack) of richest gold land (whack) to a bloody Englishman in defiance of the Liberal club at Dawson (whack) and the Liberal convention of the Yukon?"

Teacher—"School is dismissed. Even grown people in this country are not supposed to question the mighty. A meek and lowly attitude is the proper caper, especially in the Territories. I shall finish my address another day when there is a better spirit amongst our young."

The Saskatoon "Star Phoenix" of Sept. 2nd tells us that a single carload of rye was purchased from farmers at Blaine Lake for the sum of \$7,160.00 or \$3.33 1/2 a bushel. It is calculated that it would take three carloads of wheat at present prices to fetch the same amount of money as did this one carload of rye.

Now is the time to arrange to grind up some of the lower grade wheat.

See the Massey Harris No. 11 Grain Grinder. A large capacity Machine and one that will do a good job.

400,000 Left Feet

that never
push a clutch!

GM HYDRA-MATIC DRIVE has been proved by nearly 400,000 Oldsmobile owners in billions of miles of "no-clutch, no-shift" driving!

400,000 Left Feet... left without a thing to do! Because Hydra-Matic Drive eliminates the clutch pedal and all clutch pushing. 400,000 right hands... on the steering wheel where they belong! Because Hydra-Matic Drive shifts gears automatically.

Oldsmobile first introduced this revolutionary advancement almost 8 years ago! And since then, nearly 400,000 owners of Hydra-Matic Oldsmobiles have found a new freedom in driving. These owners have driven literally billions of miles—without ever shifting, or pushing a clutch.

After these 8 years, Hydra-Matic Drive is still the only "drive" that eliminates the clutch pedal and shifts gears automatically through four forward speeds. The lowest-priced car to offer GM Hydra-Matic Drive* is the smart new Oldsmobile. It's ahead in performance—automatically. Ahead in appearance—dramatically. That's why people say—emphatically... "It's SMART to Own an Olds!"

The demand for Oldsmobile with the new GM Hydra-Matic Drive* is so widespread that it still greatly exceeds the supply. Make sure your present car carries you conveniently and safely through the waiting period by having it serviced regularly by your Oldsmobile dealer.

Brief Items of Local Interest

Monday, Oct. 13, has been designated as Thanksgiving Day.

Cubs Apple Day last Saturday was a great success according to Cubmaster Merle Robertson, and the boys are very well pleased with the response.

Born to Mr. and Mrs. James O'Reilly of Vancouver, B. C., on October 1st, a son, Bryon Gray, weighing 7 lbs. 15 oz. Mrs. O'Reilly is the former Miss Laura Hagg.

The Missionary Keystone Class of the Church of Christ met at the home of Mrs. C. B. Shimp last Thursday, with sixteen members and three visitors present. One of the guests was Mrs. V. S. Lord, who gave a very interesting talk on the Argentine. The next meeting will be held at the home of Mrs. E. G. Hansell the first Thursday in November.

Miss Cora Rinehart of Turner Valley is the guest of her sister, Mrs. Henry Boose. Miss Rinehart, who was been very ill for some time past, is now improving in health and can be about again.

Gardeners are reminded that entries for group display of vegetables at the Elks' Carnival and Agricultural Show should be handed in to Mitchell's Drug Store by Tuesday, October 14th.

Mrs. Magnus Hanson of Calgary is at present visiting with her stepfather and mother, Mr. and Mrs. J. N. Johnston.

Miss Lorna Robson, of Calgary, spent the week-end at her home.

Mr. and Mrs. B. A. Lloyd and family moved into their newly built house over the weekend.

Members of the Reid Hill W. I. are asked to note that the regular meeting date has been postponed to Wednesday, October 15th, to be held at the home of Mrs. F. B. Clark. A White Elephant sale will be a feature of the meeting.

Mrs. Fred Simington of James River Bridge is visiting at the home of her son-in-law and daughter, Mr. and Mrs. Jim Clark.

Mrs. H. J. Maber, who has spent the past year with an ill sister in Ontario, has returned to her home here.

Jim Chapman, Bruce Gonyea, Mr. and Mrs. Dick Boose and Mrs. C. B. Shimp were recent Calgary visitors. Miss Inez Shimp has finished her course at Garbutt's Business College in Lethbridge and is now assisting her father, C. B. Shimp.

Verne Patriquin, who broke a leg last winter when he slipped on an icy street, is again a patient in the Holy Cross hospital, Calgary, where he will undergo another operation.

Mr. and Mrs. Rae King of Camrose were recent visitors at the home of Mr. and Mrs. F. M. Anderson. Formerly publisher of the Claresholm Local Press, Mr. King is now editor of the Camrose Canadian.

Mrs. D. Van Blarcom and children of Hanna have been visitors at the home of Mrs. Van Blarcom's uncle and aunt, Mr. and Mrs. Guy Denbigh.

Miss Ruth Clark of Calgary was a weekend guest at her home here.

A. G. Spaeth has returned from a six weeks trip to Cleveland and Columbus, Ohio. Mr. Spaeth also visited Rochester, where he received medical treatment at the Mayo Clinic.

Miss Ruth Alice Deans was a recent visitor at her home.

Buy Canada Savings Bonds. 2 1/2 % interest. Cashable any time at full value with interest to date. J. T. Willard agent for Ringland Meredith and Walker.

The Calgary Herald has been sued by C. B. Hill, Supt of Child Welfare in Alberta for libel damages to the amount of \$25,000.

Bennie Dann of Calgary spent the weekend at his home in the district.

Miss Amy Tuttle of the High River hospital staff was a recent visitor at the home of her parents Mr. and Mrs. S. Tuttle.

Miss Jean Benoit was a weekend visitor to Calgary.

Mr. and Mrs. Don Buehler have returned from spending a few days in Calgary.
